INFANTS ARE NEEDED FOR A RESEARCH STUDY

Baby Food Intakes on Growth & Gut Health

Your Baby May Qualify If They ...
- Are 3-4 months old
- Was born full term
- Have no previous complementary food exposure
- Have no health conditions that would affect growth
- Have not had antibiotics

Your Baby’s Participation Involves...
- Consume solid foods provided by the research team
- Urine & stool sample collections
- Collecting a small amount of blood
- Length and weight measurements
- Diet records

IF INTERESTED, PLEASE CONTACT MINGHUA TANG, PHD, MS
Minghua.Tang@CUAnschutz.edu | 303-724-3248

COMPENSATION PROVIDED!
