

Can COVID-19 during pregnancy affect your baby's health?

We're looking at how infections during pregnancy may affect your baby's immune system.

WHO IS ELIGIBLE:

- Adults aged 18 and older.
- People who are Pregnant.
- Will give birth at UCHHealth Metro Denver.
- Had COVID-19 during their pregnancy.
- You may qualify as a healthy volunteer if you did not have COVID-19 or other viral infections during pregnancy.

WHAT TO EXPECT:

If you join this study, we will:

- Take small blood samples during pregnancy.
- Collect a donation of placental tissue after birth.
- Collect a small blood sample from your baby after birth.
