

# Have you been diagnosed with Endometriosis?

**We want to hear about your experiences.**

## Who are we looking for?

- Assigned female sex at birth
- 18 years of age or older
- Diagnosed with endometriosis

## What will you be asked to do?

1-1.5 hour interview with a research team member to listen and learn about your experiences with endometriosis

**Purpose of the Research Study:** BIPOC (Black, People of Color, Indigenous) women with endometriosis often experience delays in diagnosis and treatment of endometriosis. This study is researching the experiences of diverse patients with endometriosis. We hope to create an assessment tool that could lead to earlier diagnosis and treatment of endometriosis among minoritized groups.
