

Research Study for New Parents

One virtual session and one ~60-minute survey.

Researchers at the University of Colorado Anschutz Medical Campus are seeking couples who are 18 years or older and who have had a child in the past 6 months for a study to examine pregnancy and early parenthood experiences.

Eligible participants:

- Age 18 or older
- A biological child born in the past 6 months
- In a relationship with the parent of your child
- Non-birthing partner uses alcohol and cannabis
- Participate as a couple

CARE STUDY

COUPLES' ADJUSTMENT AND RESILIENCE
IN EARLY PARENTHOOD

You and your partner can earn up to \$75 each.

If you are interested in participating or want to know more about the study please contact CAREstudy@cuanschutz.edu.
