

Do you have an early form of Age-Related Macular Degeneration (AMD)?

If yes, you may be eligible to join an NIH sponsored research study:

Biomarkers of Systemic Inflammation in Intermediate AMD

THE PURPOSE

- To gain insight into the causes of AMD
- Study biomarkers in the blood that are linked with AMD

YOU MAY BE ELIGIBLE IF YOU...

- Are over 60 years of age
- Have an early form of AMD
- Are in good health
- Have no other existing serious disease of the eye
- Do not have the advanced forms of AMD

WHAT TO EXPECT

Participation includes an initial baseline visit and annual follow-up visits for approximately 4 years.

The research visits will include:

- Collection of the medical and ocular history
- A blood draw
- Dilated imaging of the eye
- Examination of your visual function

COMPENSATION IS PROVIDED

- Study visits and medical tests are at no cost
- Compensation will be provided for your time

CONTACT THE STUDY TEAM

To learn more about this study please contact AMDregistry@cuanschutz.edu, call the AMD research team at 720-848-2479; or complete the questionnaire found [here](#)
